WHO WE ARE

A licensing-first consultancy for Gulf healthcare

Prometric Medical Consultancy (PMC) is a Dubai-based consultancy that helps healthcare professionals get licensed to practise in the GCC, and helps employers hire people who can actually start. We prepare and submit licensing files, run Dataflow primary source verification, prepare candidates for their licensing exam on our own question banks, and share licence-ready profiles with hiring facilities.

- **Free eligibility assessment before any file is opened, including title tier and exam exemption**
- **Licensing files prepared, submitted and tracked for all 10 major GCC health authorities**
- **Authority-specific MCQ banks with explanations, chapter-wise practice and timed mock exams**
- **Candidate profiles shared with facilities only once the candidate is ready to move**

WHAT WE COVER

Eligibility

Degree, experience and title reviewed against each authority, so everyone knows where a candidate qualifies and at what level.

Licensing

New licences, transfers between authorities, title upgrades and added titles, from Dataflow to licence activation.

Exam preparation

Question banks built to each exam blueprint, with unlimited retries and full-length mocks in real exam conditions.

Talent Pool

Ready candidates matched against live vacancies and introduced to partner facilities across the Gulf.

We are a consultancy, not a regulator. The health authority issues the licence; we prepare and submit the file, keep it moving and keep everyone informed. Authority names appear for identification only. We are not affiliated with or endorsed by them.

PARTNERSHIP MODELS

Four ways to work with us

Every partnership is built around the same engine: eligibility, licensing, exam preparation and introductions. You choose the part that fits your organisation.

HOSPITALS, CLINICS & MEDICAL CENTRES

Talent and licensing for your hires

- Share a vacancy and receive screened profiles with the eligibility check already done
- We run the licensing file for the candidate you select, with updates to your HR team
- Transfers, title upgrades and renewals for professionals you already employ

RECRUITMENT AGENCIES

Licensing and exam prep for your placements

- Hand us the licensing file for the candidates you place, for any GCC authority
- Your candidates prepare on our authority-specific question banks
- Company referral team: every recruiter gets a personal code, and you see each referral and earning in one dashboard

UNIVERSITIES, COLLEGES & TRAINING INSTITUTES

A Gulf pathway for your graduates

- Faculty referral programme: your students save 15% on our paid services
- Your institution earns a 15% commission, tracked live in your own dashboard
- We handle documents, payments and applications directly with each graduate

EDUCATION & CONTENT PARTNERS

Reach candidates preparing for GCC exams

- Offer your question banks, certificates or diploma courses to candidates on our platform
- We register and charge the candidate; revenue is shared on your content
- A partner dashboard shows live sales, customers and every transaction

PROFESSIONS WE WORK WITH

Consultants and specialists | General practitioners | Dentists | Registered nurses and midwives | Pharmacists | Allied health professionals | Paramedics and EMTs | TCIM practitioners

FOR HEALTHCARE FACILITIES

From open vacancy to a licensed start

Licensing and introductions are separate services, so you can use either one on its own. Used together, this is the path.

1

Tell us the role

Specialty, title level (GP, Specialist or Consultant), authority and target start date. Sharing a vacancy costs nothing.

2

Receive screened profiles

We match candidates from our Talent Pool and send profiles and CVs with the eligibility check already done.

3

Interview and offer

You run the interview and make the decision. We keep the candidate informed and moving.

4

We run the licensing file

Document review, Dataflow verification, portal application, eligibility ID and exam booking, with status updates to your HR team.

5

Exam preparation

The candidate prepares on our authority-specific question bank and sits the exam, usually in their home country before relocating.

6

Licence and onboarding

The authority issues the licence; activation under your facility, visa and joining date are coordinated with your HR team.

TYPICAL TIMELINE

6–24 weeks

Depending on the authority, from a complete, attested document set to an issued licence. Dataflow verification is usually the longest step, which is why we audit documents before anything is submitted.

LICENSING COVERAGE

Every major GCC health authority

Wherever your facility operates, we know the pathway. Bars show typical end-to-end timelines for a complete, attested file.

Authority	Jurisdiction	Exam	Timeline (weeks)
DHA Dubai Health Authority	**UAE** Dubai	Prometric	**8–16**
DOH Department of Health, Abu Dhabi	**UAE** Abu Dhabi	Pearson VUE	**10–18**
MOHAP Ministry of Health and Prevention	**UAE** Northern Emirates	Prometric	**8–16**
SHA Sharjah Health Authority	**UAE** Sharjah	Prometric	**10–16**
DCAS Dubai Corporation for Ambulance Services	**UAE** Dubai, EMS	Authority CBT	**6–12**
SCFHS Saudi Commission for Health Specialties	**Saudi Arabia** Kingdom-wide	Prometric	**12–24**
QCHP Qatar Council for Healthcare Practitioners	**Qatar** National	Prometric	**10–20**
NHRA National Health Regulatory Authority	**Bahrain** National	Prometric	**8–14**
OMSB Oman Medical Specialty Board	**Oman** National	Prometric	**10–18**
MOH Kuwait Ministry of Health, Kuwait	**Kuwait** National	Prometric	**10–20**

One licence, one jurisdiction

A licence is valid only where it was issued. We handle transfers for staff moving between emirates or countries.

Exams before relocation

Most authorities test through Prometric centres worldwide. DOH Abu Dhabi uses Pearson VUE; DCAS runs its own exam.

Title tiers matter

GP, Specialist or Consultant is set by qualification and experience. Our eligibility check confirms it before you offer.

Timelines are typical and assume a complete, attested document set. Regulator, Dataflow and exam fees are set by third parties.

WHY PARTNER WITH US

What your organisation gets

Eligibility before introduction

Every profile you see has been checked against the authority's requirements and title tier.

Exam readiness built in

125 authority-specific question banks with chapter-wise practice, explanations and timed mocks.

Visible progress

Status updates at every licensing stage, and a live dashboard for referral and content partners.

GCC-wide coverage

6 countries and 10 health authorities, including transfers and title upgrades.

One team, end to end

Sourcing, licensing and exam preparation in one place, so nothing falls between agencies.

Flexible engagement

Use licensing, exam preparation or introductions alone or together. Terms are agreed per partnership.

OUR PLATFORM

Tools your candidates and staff can use today

FREE

Eligibility checker

Shows in minutes which authorities a professional qualifies for, at which title, and whether the exam applies.

START A COLLABORATION

Let's talk about your next hire, case or programme

Send us a vacancy, a licensing case or a partnership idea. There is no cost to discuss a role or a collaboration with us.

1

Email your requirement

Role, grade, authority and start date, or the partnership you have in mind, to info@prometricmedical.com.

2

Book a call

Call or WhatsApp +1 (914) 221-5018 to talk it through with our team.

3

Refer a licensing case

Already hired someone? We can take over the licensing file for any professional on your team.
